PERMANENT UNIVERSITY FUND

Beneficiaries of the Fund

The Permanent University Fund (PUF) is a public endowment contributing to the support of institutions of The University of Texas System (UT System) and the Texas A&M University System (A&M System). The Constitution of 1876 established the PUF through the appropriation of land grants previously given to The University of Texas plus one million acres. Additional land grants to the PUF were completed in 1883 with the contribution of another one million acres. Today the PUF contains 2,109,109 acres located in 24 counties primarily in West Texas.

Responsibility and Management of the Fund

The State Constitution vests fiduciary responsibility for the PUF with the Board of Regents of The University of Texas System. The Board has entered into a contract with a nonprofit corporation, The University of Texas Investment Management Company (UTIMCO), for UTIMCO to invest funds under the control and management of the Board. UTIMCO may not engage in any business other than investing funds designated by the Board under the contract. Specific investment decisions are handled by the investment staff as well as unaffiliated investment managers who are employed from time to time.

Investment Objectives

The primary investment objective shall be to preserve the purchasing power of PUF assets and annual distributions by earning an average annual total return after inflation of 5.5% over rolling ten-year periods of longer. The PUF's success in meeting its objectives depends upon its ability to generate high returns in periods of low inflation that will offset lower returns generated in years when the capital markets underperform the rate of inflation.

The secondary fund objective is to generate a fund return in excess of the Policy Portfolio benchmark over rolling five-year periods or longer. The Policy Portfolio benchmark will be established by UTIMCO and will be comprised of a blend of asset class indices weighted to reflect Fund asset allocation policy targets.

Market Value and Book Value of the PUF

On June 30, 2000, the market value and book value of the PUF was \$8.2 billion and \$7.4 billion, respectively, exclusive of land acreage.
